No. B/9914 of 1912.

Office of the Surgeon-General with the Government of Bombay:

Poona, 30th August 1912.

From

The Hon'ble Surgeon-General
H. W. STEVENSON, C.S.I., I.M.S.,
Surgeon-General with the Government of Bombay;

To

The SECRETARY to GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit, for the information of Government, the following report on the Civil Medical Institutions of the Presidency for the year 1911.

Statement A.

1. The total number of Institutions reported on has risen from 698 on 31st December 1910 to 733 on 31st December 1911—an increase of 35.

There is still great need for more dispensaries in many parts of the Presidency, and they are being gradually provided, as funds permit, in accordance with the scheme for provision of Dispensaries which has been approved of by Government.

2. Additions and improvements have been made to various Hospitals during the year, as follows:—

St. George's Hospital has received new Observation Wards.

The Goculdas Tejpal Hospital—Nurses' Quarters and a wall round its compound.

Ratnágiri Civil Hospital—Marble flooring to Operation Room.

Kárwár Civil Hospital—A new Female Ward and reconstruction of Mortuary.

Dhulia and Godhra Civil Hospitals—Accommodation for insane patients.

Aden Civil Hospital—A verandah on south side of main wards.

3. At Jalgaon a new Hospital is in course of construction, the funds having been provided by public subscription in the District of East Khándesh.

At Ahmedabad the Nowrojee Vakil Hospital, an addition to the Civil Hospital, which is being built by the Honourable Khán Bahádur Nowrojee Vakil, C.I.E., for Maternity cases and for Europeans and Parsis, is being erected.

Plans and estimates have been prepared for a new Civil Hospital at Sholápur, the building of which will commence immediately.

Statement B.

1. The total number of patients treated during the year was 2,191,531. In 1910 the number was 2,261,685, a decrease of 70,154. Of those treated, 55,891 were indoor paitents and 2,135,640 were outdoor cases, as compared with 54,612 indoor and 2,207,073 outdoor in 1910.

It may be noted that the decrease was entirely among the outdoor patients. It was due to a healthy season following a short rainfall. The decrease in cases of malaria alone was over 60,000.

2. Among the indoor patients 36,024 were "cured", 5,778 were "relieved", 5,396 were discharged "otherwise" and 4,994 died. The percentage of mortality was 8·9 as compared with 9·3 in 1910.

3. The number of beds available was 6,160 and the daily average number of patients occupying them was 3,113·8.

Hospital accommodation is still very deficient, particularly in Bombay City. For a population of close on one million inhabitants Bombay has a total of 1,887 beds and most of these are provided by Government. For a much similar population cities like Glasgow and Liverpool provide about 3,000 beds each, and this for inhabitants who are not nearly so poor as that of Bombay. The most urgent needs of the city now, are an Infirmary or Hospital for incurables, and a Hospital for Tuberculosis cases only. The General Hospitals should be relieved of all such cases.

4. The average daily attendance of outdoor patients was 19,418·9 against 19,564·9 in 1910.

Statement C-I.

1. The annexed table shows the more important diseases among the indoor patients treated during the years 1910 and 1911 and mortality due to them :—

Disease.	1911.		1910.	
	Total treated.	Deaths.	Total treated.	Deaths.
Cholera	103	30	79	32
Dysentery	1,157	189	1,343	232
Leprosy	1,844	126	1,434	98
Malaria	6,380	167	7,465	160
Small-pox	460	89	847	208
Tubercle of the Lung	1,049	355	1,058	401
Other tubercular diseases	966	144	877	145
Diarrhœa	1,280	330	1,311	377
Injuries (General and Local)	7,739	544	6,814	676

2. The increase in Leprosy cases is due to the inclusion in the return of the Asylums at Pui, Poladpur and Khondwa which was not formerly done.

3. Sickness due to Tuberculosis gives a total of 2,015 cases with 499 deaths as compared with 1,935 cases and 546 deaths in 1910.

4. The total number of indoor and outdoor cases of small-pox treated was 744. In only 396 cases was the vaccinal condition ascertained. Of these 163 were unvaccinated, 228 vaccinated in infancy (of which 10 were vaccinated after infection with small-pox), 4 vaccinated in later life, and one had been re-vaccinated.

Statement C-II.

1. Amongst outdoor patients malaria, with considerably reduced numbers as compared with 1910, furnished the largest number of admissions; next in order coming diseases of the Digestive and Respiratory tracts, Diseases of the Eye, Ear and Skin.

Statements D-I and D-II.

1. The attendance at Police, Canal, Forest and other State special institutions fell from 46,496 in 1910 to 42,813 in 1911, the decrease being chiefly due to fewer admissions from malaria and diarrhœa.

2. At Railway Hospitals there was a fall in attendance of 1,179. There was a marked decrease in the number of cases treated for Malaria, *viz.*, 37,922 against 40,515 in 1910.

Statement E.

1. The total number of indoor and outdoor patients treated at Private non-aided institutions rose from 1,790,999 in 1910 to 1,878,151 in 1911.

Statement F.

1. Of the 2,191,531 patients treated, 16,415 were Europeans and Eurasians, 1,491,742 were Hindus, 326,399 were Mussalmans and 128,975 belonged to other classes.

Statement G.

1. 92,365 Surgical Operations were performed against 90,123 in 1910. They were performed on 92,302 patients with a mortality of 0·46 per cent., the same figure as in the previous year.

2. The removal of Tumours and Cysts accounted for 1,552 operations with 14 deaths. Amputations 748 with 22 deaths (20 years ago these were 275 with 20 deaths). Cataract extractions 1,576. Vesical Calculi were removed by Litholapaxy in 1,204 cases with a mortality of 1·82 per cent. (Hyderabad, Sind, shows 472 cases with only 1 death). In 87 cases Lithotomy was necessary, and of these 9 died.

Abdominal operations other than those for diseases peculiar to women numbered 1,387 with 162 deaths, while for diseases peculiar to women the numbers were 167 with 16 deaths—a total of 1,554 abdominal operations with 178 deaths. These included 193 operations for radical cure of Hernia and 176 for abscess of the Liver.

3. Obstetric operations amounted to 989 with 17 deaths and operations for conditions peculiar to women other than obstetric and abdominal numbered 699 with 4 deaths.

4. The results of operative work in the Hospitals generally are excellent and the popularity of these institutions is largely due to the good surgical work done in them.

Statement H.

1. The total income inclusive of the cash balance in hand amounted to Rs. 23,07,618 as compared with Rs. 22,04,142, in 1910. The amount received from Government was Rs. 10,89,262 or Rs. 38,590 less than in the previous year. Rs. 2,30,383 were obtained from the Local Funds and Rs. 4,19,250 from the Municipal Funds. The interest on invested capital yielded Rs. 40,423. Subscriptions from Europeans and Indians amounted to Rs. 37,988. Miscellaneous receipts amounted to Rs. 2,81,859, of which Rs. 84,411 were realized on account of hospital fees and Rs. 1,22,025 were contributed by the several Nursing Associations.

2. The total expenditure was Rs. 21,01,095 against Rs. 19,90,212 in 1910. Deducting from this Rs. 1,49,211 remitted into the Treasury on account of hospital fees, sale proceeds of unserviceable articles, etc., and Rs. 12,491 invested during the year, the net cost was Rs. 19,39,393. The average cost of each diet was Re. 0-3-6. The percentage of cost borne by Government was 48·9 as compared with 53·9 in 1910.

3. It may be remarked that the increase in the income and expenditure over the preceding year was partly due to the inclusion, for the first time, of all the income and expenditure in connection with nursing arrangements at some of the hospitals which had hitherto accounted only for a portion of the cost of nursing which was borne by Government.

Statement J.

1. On 1st January 1911 the invested capital stood at Rs. 9,71,270. During the year Rs. 12,491 were invested and securities worth Rs. 9,301 were sold and withdrawn, leaving a balance of Rs. 9,74,460.

I have the honour to be,
Sir,
Your most obedient servant,

H. W. STEVENSON,
Surgeon-General, I. M. S.,
Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT A.

Showing the number of Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1911.

[Total Population of the Province—27,034,317.]

Class of Civil Hospital and Dispensary.	Number open on 31st December 1910.	Number opened during the year 1911.	Number closed during the year 1911.	Number open on the last day of the year 1911.	Remarks.
1	2	3	4	5	6
I.—State—Public ...	49	...	...	49	
II.—State—Special—					
(i) Police ...	5	...	...	5	
(ii) Forests and Surveys ...	2	...	...	2	
(iii) Canals ...	3	...	...	3	
(iv) Others ...	14	...	...	14	
III.—Local and Municipal Funds ...	268	(*a*) 4	...	272	(*a*) Ráver Dispensary (East Khándesh), Dahiwadi Dispensary (Sátára), Rewabai Dispensary (Ahmedabad) and the New Dispensary, Shikárpur, (Sukkur.)
IV.—Private—Aided ...	10	(*b*) 4	...	14	(*b*) Pui and Poladpur (Kolába) and Khondwa (Poona) Leper Asylums and Válod (Surat) Dispensary.
V.—Private—Non-aided ...	301	(*c*) 33	(*d*) 10	324	(*c*) 5 in Ratnágiri, 4 in Poona, and 1 each in Násik and Ahmedabad Districts and 16 in Káthiáwár, 2 in Surat and 1 each in Poona, Sátára and Pálanpur Agencies, and 1 in Aden. (*d*) 9 in Thána District and 1 in Mahi Kántha Agency.
VI.—Railways ...	46	(*e*) 4	...	50	(*e*) Junagad State Railway Dispensary, Jamnagar State Railway Dispensary, Bhavnagar Para Dispensary and N. W. Railway Engine Shed Dispensary, Rohri.
Total ...	698	45	10	733	

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution, possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State' when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State Dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries, whether maintained by State railways or others.
